

WHO ARE WE? VOLUNTEERING SERVICE

Is a Home & Community Care (HACC) funded program within Flexible Support Services Australia

Ltd. Matching and referring people to suitable volunteer positions, within HACC organisations to assist in the support of aged care and young disability consumers across the Logan/Beaudesert region.

On-going training is provided to assist volunteers in providing optimal care to consumers, gaining an understanding of organisational requirements and increasing knowledge and skills in best practices when working in the aged care/disability sector.

Volunteering within the community is self rewarding as it is beneficial to people in need of community assistance and support.

We enhance and support the provisions of Home & Community Care (HACC) services through facilitating and supporting the inclusion of volunteers within their service provision.

WHY VOLUNTEER?

Integrating back into the workforce is not always any easy transition. There are many variables that can prevent a person from obtaining employment. Through support, identified training needs and practical experience increases the chances of a persons ability to successfully obtain paid work. Volunteering is globally recognized as a stepping stone into the work force. Each stone representing stability and structure towards easing people into a working environment. Allowing a person to be productive and demonstrate work performance without the pressures of a paid position. Identifying the persons level of competency and area of expertise will provide the person with the right tools and experience to sustain a paid position.
