About Us

Volunteering Service liaises with Home & Community Care (HACC) organisations that support aged and young disability consumers to continue living as independently as possible in the community. The service provides opportunities for people to volunteer their time, by assisting in supporting consumers within the Logan-Beaudesert region through matching and referring people to suitable volunteer positions. On-going skill based training is offered and support given to volunteers to enhance their skills, knowledge and confidence when working in the aged care/disability sector.
